

Time Critical & Temperature Sensitive Delivery

Delivery Specialists for:

- Biomedical & Pharmaceutical Products
- Electronic/Scientific Equipment
- Research Models

Meeting Customer Needs for:

- National Temperature Controlled Network
- Time Sensitive Delivery
- Biosecurity
- Logistics and Warehousing Services

Direct Services, a woman owned business, specializes in the transportation of temperature and environmentally sensitive commodities in support of the biomedical and pharmaceutical research communities. The company has over 35 years of experience, is certified in the latest ISO standard, ISO 9001:2008, and compliant with USDA regulations.

Direct Services operates a company owned fleet of vehicles ranging from cargo vans to straight trucks and tractor-trailers all with redundant cooling units. Vehicles are equipped with Ameriscan recording and tracking devices to provide verified temperature control and the highest levels of biosecurity.

Serving pharmaceutical time critical and temperature sensitive deliveries for over 35 years.
